

# A MUTUAL FUND WITH A *Difference*

VOLUMETRIC FUND INC.

PHONE: 800-541-FUND

From left: Gabriel Gibs, Irene Zawitkowski and Jeffrey Gibs

Volumetric Fund started 41 years ago and has grown tremendously during the years, attracting more and more seasoned investors, who know the value of a no-load fund. With Volumetric Fund, you “avoid the middle man” and commission fees, thereby keeping more of your investment.

We believe that the old adage *“let your money work for you - don’t work for your money”* is why people need to invest. It is important to save but, it is equally important to invest what you save and let it grow with time. The power of investing over time allows your money to work for you.

We use a proprietary mathematical methodology developed by our founder, Gabriel Gibs. It’s a conservative investment approach with the goal of downside protection. Our objective is to make clients less vulnerable in a downward market and to help their investments grow in an upward market. It’s an effective approach which our clients appreciate.

*View our past performance on [volumetric.com](http://volumetric.com)*

With Volumetric Fund, you have the benefit of getting to know the people who are investing your money – a team of highly educated professionals with a combination of 75 years of financial investing experience.

With most mutual funds, you may never get to meet the person who’s actually investing your money. When you speak to our portfolio managers directly, they can give you the guidance that you may not find with other mutual funds.

*“We have a personal relationship and trust with our clients that lasts for many years. Our investors are the utmost importance to us and we are here for them.”* says President, Jeffrey Gibs.

*“I’ve seen people retire with little or no money because they never did the simple things. When I do get a chance to help people get started, I know I’m changing the quality of their lives later on. We enjoy helping people grow their money over time.”*

*– Irene Zawitkowski, Chair, CEO, Sr. Portfolio Manager*

*Our client’s accounts range from \$500 to over \$1,000,000. We can fit the needs of someone starting to save or an established investor. I like to help people make money for the long-run so, they can do what is good for them.”*

*– Gabriel Gibs, Founder and Chairman Emeritus*

## Who Are Our Clients?

- Many first time investors who are tired of having their money sit in a bank earning low interest rates and are ready to make their money work harder for them.
- Savvy investors who have done their research and invest based on our past performance record. They value and appreciate our proprietary investment approach.
- Parents and grandparents who want to give children a gift that keeps on giving. For birthdays and special occasions, they can open or add to an account which can grow over time.
- “I was inspired by my grandparents who invested for me. I used the money for a down payment on my first condo at the age of 24.” Jeffrey Gibs, President.
- “My sons were able to buy their first car with money gifts that were invested in this fund. They were shocked when they were 17 and saw how much it grew. They learned that instant gratification does not buy cars.” Irene Zawitkowski, CEO.
- All of our team and board members are investors too. We believe in this approach and our clients appreciate that we are investing in the Fund alongside them.

You should carefully consider the investment objectives, potential risks, management fees, and charges and expenses of the Fund before investing.
