3. Tax Withholding Election

Federal Withholding *Completion and execution of this form, including any federal withholding election made herein, obviates the need to complete a separate Internal Revenue Service Form W-4R. However, a copy of IRS Form W-4R with instructions is attached for your reference*

Your withholding rate is determined by the type of payment you will receive.

For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% below. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions. (See the attached Form W-4R for more information.)

Complete this section if you would like a rate of withholding that is different from the default withholding rate. See the instructions and the Marginal Rate Tables that follow for additional information. Enter the rate as a whole number (no decimals).

Withhold _____%

If no withholding information is included, we will automatically withhold the default withholding percentage elected on your account. If you do not have a default withholding election on your account and the above information is left blank, we will automatically apply 10% default withholding to your systematic withdrawal plan.

State Withholding

Your state of residence will determine your state income tax withholding requirements, if any. Those states with mandatory withholding may require state income tax to be withheld from payments if federal income taxes are withheld or may mandate a fixed amount regardless of your federal tax election. Voluntary states let individuals determine whether they want state taxes withheld. Some states have no income tax on retirement payments. Please consult with a tax advisor or your state's tax authority for additional information on your state requirements.
