

**INVESTMENT OBJECTIVES / GOALS**

Volumetric Fund's investment objective is capital growth. Its secondary objective is downside protection.

**PRINCIPAL INVESTMENT STRATEGIES**

The Fund seeks to achieve its objective by investing primarily in a broadly diversified portfolio of large and mid-cap domestic stocks with annual revenues, at the time of purchase, over \$3 billion. The Fund generally maintains a portfolio containing a blend of value and growth stocks. The Fund invests primarily in issuers listed on the New York Stock Exchange, and to a lesser extent, in common stocks of issuers listed on NASDAQ and other exchanges. The Fund may also invest up to 15% of its net assets, in exchange traded funds (ETFs).

The Fund allocates its assets between stocks, cash and cash equivalent positions (money market) using a proprietary asset allocation formula. Under positive market conditions, the Fund's total cash and money market positions are typically between 3% and 15%. Under negative market conditions the Fund's total cash and money market positions may increase up to 40%, and under extremely negative conditions to over 40%.
